Bank code: 711 200 78 SWIFT: HYVE DEMM 644

## 2<sup>nd</sup> TEGERNSEE **FOAM** **SCLEROTHERAPY** SEMINAR

**09<sup>th</sup>- 10<sup>th</sup> May 2014**

In collaboration with the  
**Bavarian Chamber of Physicians**  
of the  
**German Society of Phlebology (DGP)**  
and the  
**Sclerotherapy working group of the  
German Society of Phlebology**

*Dear Colleagues*

Sclerotherapy of varicose veins, an effective and proven treatment method, is actually booming worldwide thanks to the use of foamed sclerosing agents.

Foam sclerotherapy holds a prominent place in the actually controversial debate between supporters of classical surgical approaches including crossectomy and stripping, and supporters of novel treatment methods: Foam sclerotherapy is with no doubt a trendsetting alternative in the management of varicose veins.

The objective of our seminar is to provide a practice-focussed introduction to the principles of this treatment option.

To ensure 'high-impact' hands-on training and discussions, it is necessary to limit the number of participants to a maximum of 18 persons (6 per group).

Applications will be considered in the order of receipt and will not be binding until the course fee arrives. Thank you in advance for your understanding.

For questions please contact Ms AMMER  
telephone no.: +49 8022 1218

**Speakers and organisers:**

Dr. med. FRANZ XAVER BREU

Dr. univ. Parma STEPHAN GUGGENBICHLER

Dr. med. BERNHARD PARTSCH

Dr. med. BIRGIT ZWERNEMANN

P R O G R A M M E

**Friday** Altes Schalthaus, Electricity Power Station

14:00 *Welcome & Introduction.*

14:15 Special anatomy of the leg vein system and new anatomical nomenclature.  
Sclerosing agents and sclerosing foam.

15:30 *Coffee break.*

15:45 Duplex ultrasound of the leg vein system with special emphasis on pre-sclerotherapy diagnostics.

Indications, contraindications and thrombosis prophylaxis.

18:00 *End.*

19:00 *Dinner.*

**Saturday**

09:00 Practical approach to duplex-guided foam and micro sclerotherapy.  
Current therapeutic strategies.

Complications and adverse effects of sclerotherapy. Prevention and therapy.  
Ambulant thrombosis therapy.

Dosage, concentration, equipment.  
Criteria for measuring effectiveness.

10:45 *Coffee break.*

11:00 Post-sclerotherapy compression therapy.  
Review of the literature on foam sclerotherapy.

Integration of sclerotherapy into daily patient care.

12:30 *Lunch break.*

14:00 Hands-on training in three groups in a doctor's practice.

17:00 *End of seminar.*
